

Links to Project WET Activities

Project WET (Water Education for Teachers) is a nonprofit water education program for educators and young people, grades K–12. The *Project WET Curriculum and Activity Guide* was published in 1995 by The Watercourse and the Western Regional Environmental Education Council and contains more than 90 water education activities. These guides are distributed through water resources workshops that also provide local-, regional- and state-specific information to participants. In Florida, Project WET is sponsored by the St. Johns River,

Southwest Florida and South Florida water management districts and the Florida Department of Environmental Protection.

The following activities from the *Project WET Curriculum and Activity Guide* are especially appropriate for the content of each chapter. For Sunshine State Standards correlations for these activities, please visit the Southwest Florida Water Management District's Web site's Information and Education Section at WaterMatters.org, or call 1-800-423-1476, ext. 4757, to request a copy.

Chapter 1 — The Human Framework

The First Floridians

Water Celebration, page 446, grades 3–8

Water Messages in Stone, page 455, grades 3–8

Drainage, Flood Control and Navigation

Dust Bowls and Failed Levees, page 303, grades 9–12

Modern Water Management

Humpty Dumpty, page 316, grades 3–8

Hot Water, page 389, grades 9–12

Perspectives, page 397, grades 6–12

Water Law

Pass the Jug, page 393, grades 3–12, K–2 option

Water Bill of Rights, page 403, grades 3–12

Common Water, page 232, grades 3–8, K–2 option

Chapter 2 — Water: It's Magic!

Introduction

Wish Book, page 460, grades 6–12

Water Messages in Stone, page 454, grades 3–8

Aqua Bodies, page 63, grades K–5

Aqua Notes, page 66, grades K–5

Water's Structure

- Hangin' Together*, page 35, grades 3–12
- Adventures in Density*, page 25, grades 3–12
- Molecules in Motion*, page 47, grades K–8
- Water Match*, page 50, grades K–5
- What's the Solution?* page 54, grades 3–8
- H₂Olympics*, page 30, grades 3–8

Global Water Cycle

- Thirsty Plants*, page 116, grades 6–8
- Imagine!* page 157, grades 3–8
- The Incredible Journey*, page 161, grades 3–8
- Just Passing Through*, page 166, grades 3–8
- Old Water*, page 171, grades 3–8
- Poetic Precipitation*, page 182, grades 3–8, K–2 option

Floods and Droughts

- AfterMath*, page 289, grades 3–8
- Nature Rules!* page 262, grades 6–12

Storms

- The Thunderstorm*, page 196, grades K–12
- Water Models*, page 201, grades 3–8

Chapter 3 — Florida's Water Resources

Watersheds

- Branching Out!* page 129, grades 6–8
- Capture, Store, and Release*, page 133, grades 4–5
- Rainy-Day Hike*, page 186, grades 4–8
- Color Me a Watershed*, page 223, grades 9–12

Ground Water

- Get the Ground Water Picture*, page 136, grades 6–12

Surface Water

- Stream Sense*, page 191, grades K–5
- Back to the Future*, page 293, grades 6–12

Wetlands

- Life in the Fast Lane*, page 79, grades 3–8
- Wetland Soils in Living Color*, page 212, grades 6–8
- Capture, Store, and Release*, page 133, grades 4–5

Estuaries

- Salt Marsh Players*, page 99, grades 4–5

Chapter 4 — Water and Life: Natural Systems

Ancient Origins

- Common Water*, page 232, grades 6–8
- People of the Bog*, page 89, grades 6–12
- Energetic Water*, page 242, grades 4–8

Ecosystems

- The Life Box*, page 76, grades K–5
- Macroinvertebrate Mayhem*, page 322, grades 4–8

Soils

Wetland Soils in Living Color, page 212, grades 6–8

Ecosystem Processes: Water and Fire

A House of Seasons, page 155, grades K–3

Natural Communities

Salt Marsh Players, page 99, grades 4–5

Water Address, page 122, grades 4–8

Chapter 5 — Water Supply and Water Quality

Water Use

Common Water, page 232, grades 6–8

A Drop in the Bucket, page 238, grades 6–8

Irrigation Interpretation, page 254, grades 4–8

The Long Haul, page 260, grades K–12

Water Meter, page 271, grades 4–8

Water Works, page 274, grades 4–8

Every Drop Counts, page 307, grades 4–8

Choices and Preferences, Water Index, page 367, grades 6–12

Dilemma Derby, page 377, grades 6–12

Easy Street, page 382, grades 6–8

Water Concentration, page 407, grades 4–5

Water Court, page 413, grades 9–12

Water Reuse

Sparkling Water, page 348, grades 6–12

Water Quality

Water Actions, page 12, grades 6–12

No Bellyachers, page 85, grades 4–8

Poison Pump, page 93, grades 6–8

Super Sleuths, page 107, grades 6–12

Just Passing Through, page 166, grades 4–8

Sum of the Parts, page 267, grades 4–8

A-maze-ing Water, page 219, grades K–5

Where Are the Frogs? page 279, grades 6–8

The CEO, page 300, grades 9–12

A Grave Mistake, page 311, grades 6–12

The Pucker Effect, page 338, grades 6–12

Reaching Your Limits, page 344, grades 4–8

Sparkling Water, page 348, grades 6–12

Super Bowl Surge, page 353, grades 4–12

Chapter 6 — Forward to the Past

Restoration

Humpty Dumpty, page 316, grades 4–8

Pass the Jug, page 392, grades 6–8

Perspectives, page 397, grades 6–12
